

COMPANY OVERVIEW

Poseidon Cyber Advisory Services is a mission-focused cybersecurity and technology advisory firm delivering end-to-end solutions that help organizations reduce risk, achieve compliance, modernize infrastructures, and strengthen operational resilience.

We partner with organizations in the Defense Industrial Base (DIB), federal agencies, and commercial industries to secure critical information, protect the supply chain, and enable growth through modern, mission-ready solutions.

CORE COMPETENCIES

CYBERSECURITY ADVISORY SERVICES

- Cybersecurity Program Development
- vCISO / Fractional CISO Services
- Cyber Maturity-as-a-Service (CMaaS)
- Security Architecture & Engineering
- Incident Response & Ransomware Recovery
- Threat Intelligence & Vulnerability Management
- Governance, Risk, & Compliance (GRC)

MANAGED SECURITY SERVICES

- Managed Service Provider Services (KRONOS™)
- Network Security Operations Center Services (TRITON™)
- Security Monitoring & Incident Response
- Threat Detection & Continuous Monitoring
- Vulnerability Management
- Security Operations Support

CMMC & FEDERAL COMPLIANCE

- CMMC Business Impact Assessments (BIA) and ROI Analysis
- CUI Scoping & Boundary Definition
- CUI Environment Strategy * Architecture
- NIST SP 800-171 Gap Assessments and SPRS Scoring
- CMMC Readiness Reviews & Pre-Assessments
- C3PAO Assessment Support
- RMF, FISMA, NIST 800-53 & federal Compliance Support

TECHNOLOGY TRANSFORMATION

- Strategic Planning & Leadership
- IT Portfolio Management
- PMO & Program Management
- IT Service Management (ITSM)
- Virtualization Solutions
- Business & Technology Remediation
- Research, Development & Training

CLOUD & INFRASTRUCTURE SERVICES

- Microsoft GCC & GCC High
- Azure Government
- AWS & AWS GovCloud
- Google Cloud Platform (GCP)
- Oracle Cloud Infrastructure (OCI)
- Cloud Migrations & Modernization
- Hybrid & On-Premises Architecture
- Operations & Maintenance

SPECIALIZED SOLUTIONS

- Geospatial Implementation & Analysis
- Mission Security Engineering
- Cross Domain Solutions
- Business Continuity & Disaster Recovery
- Data Center Services
- Elite Protection Solutions

DIFFERENTIATORS

Cyber AB Registered Provider Organization (RPO) supporting organizations across the Defense Industrial Base.

Experience team includes CMMC Certified Professionals (CCPs), Registered Practitioners (RPs), and senior cybersecurity, cloud, and mission systems architects.

Expertise across commercial and GovCloud environments (M365 GCC/GCC High, Azure Government, AWS, GCO, OCI, HPE GreenLake).

End-to-end support from business case development through implementation, assessment, and long-term sustainment.

Deep experience across aerospace, defense, satellite, semiconductor, manufacturing, healthcare, and critical infrastructure.

Mission-focused approach aligning cybersecurity investments with operational resilience, contract eligibility, and business growth.

INDUSTRIES WE SERVE

-  Aerospace & Defense
-  Space & Satellite Systems
-  Advanced Manufacturing
-  Healthcare & Life Sciences
-  Critical Infrastructure
-  Federal Contractors & Subcontractors
-  Commercial Enterprises

ENGAGEMENT LIFECYCLE

PROPRIETARY PLATFORMS

ATHENA™

Risk Management Platform supporting governance, risk management, and compliance activities.

KRONOS™

Managed Service Provider platform delivering operational and infrastructure support.

TRITON™

Network Security Operations Center platform delivering monitoring, detection, and response capabilities.

PARTNER ECOSYSTEM

OUR MISSION

We accelerate CMMC readiness and strengthen cyber resilience so our clients can win, protect, and sustain mission-critical DoW and federal business.

LET'S SECURE YOUR MISSION.
TOGETHER.
